"Dynamite Mike" Kelly says he handed the Admiral a memorial thanking him for making friends for Ireland. Three police boats flying the emerald departmental flag and toddling up the bay behind the vast Olmypic were the nearest visible reminder of the Irish navy. Police Commissioner Enright made good his promise to have more than 1,000 men on hand to preserve the Admiral and the good name of this great city. There were 700 at the pier or along the route from the pier, and others moving magnificently on horse or motor back or in motor cars as the returned warrior and orator fiashed uptown from the waterfront. They were geared for good work, but there was little to be done. They marched and countermarched, and had the aspect of a police parade with Admiral Sims as the reviewing officer. Through their field commanders he complimented them at the station upon their alertness and the obvious effectiveness of their riot formation.

KILPATRICK IS SENT TO SOVIET HOSPITAL

Forty Days on Starvation Diet in Prison Puts Him in Grave Condition.

By the Associated Press. Riga, June 22.—After having passed forty days on a starvation diet in the Concessions for Naval Bases. Tcheka Prison at Moscow, most of the time in an underground cell, Capt. Emmet Kilpatrick, a member of the American Red Cross, who was captured by the Star liner Olympic after a visit to Rus-Bolsheviki last November and since has been incarcerated in various prisons, has been moved to the hospital of an-

has been moved to the hospital of another penal institution.

Early in June he was in an extremely serious physical condition. Word has reached Riga from a source that is regarded as authoritative that Capt. Kilpatrick is not mentally affected, as was recently reported, but is so emaclated from the effect of hemorrhages of the stomach that his condition was regarded as extremely grave.

American and Hungarian prisoners, say reports received here, are the worst treated of all the persons under detending in Moscow.

The Olympic also carried Sir Joseph W. Isherwood, Earl, ship constructor, and Harry Preston, Jeffery Farnol and other British writers who will describe the Carrentier-Dempary fight.

It also proves that an institution with an artistic temperament can survive in Fifth Avenue. Out of a business of glass Ovington's have built a reputation of iron and reared a temple of stone on a foundation of fragile and delicate things. Combining duty with beauty, and esteeming quality as high as the quest for gain, they have well earned their promotion to Upper Fifth Avenue, whose un written motto is this

WHO SERVES TO SUCCEED DESERVES TO SUCCEED

Franklin Simon & Co.

THESE small fac-similes represent the public welcome which two of our neighbors have extended to us. They speak of our new shop, but in a larger way, they speak more eloquently of the spirit of the great institutions which conceived them.

ON Sunday, in the newspapers of New York, Lord & Taylor publicly welcomed Ovington's as a next door neighbor.

Lord & Taylor

It was an act of courtesy which we cannot soon forget nor lightly pass over. Coming from a firm which, for nearly a century has stood for all that is fine and wholesome in business, coming so freely and unselfishly, . it was a token of business fellowship perculiarly American.

And to Franklin Simon & Company are due the thanks which their superb welcome inspires. For into it they have put that broadness and good spirit which has distinguished their progress.

We thank Lord & Taylor. We thank Franklin Simon, and we thank all our neighbors and our friends who have made this forward step of ours much more to us than merely a business move.

For happy indeed is the family or company which, leaving an old home for a new, finds that its neighbors are its friends.
